

AP Computer Science A

Summer Assignment

1. Go to the following web site: <https://www.edx.org/>
  - a. Create a free account
  - b. Search the available course for: **Introduction to Computer Science and Python Programming (it should be from Harvey Mudd College)**
2. Go through the course at your own pace. You can skip items that you are familiar with, students who have had AP Computer Science Principles will find that they already know some of this content. You will not be graded based on course completion but you will have a test over the content in the 1<sup>st</sup> week of school.

Please come see me in room 204 or email me at [michelle\\_c\\_smith@gwinnett.k12.ga.us](mailto:michelle_c_smith@gwinnett.k12.ga.us) if you have questions or concerns.
